

**100 % USDA  
CHOICE BEEF**

SK Herefords beef is premium beef  
with no additive or antibiotics.

We dry-age our beef for 2 weeks  
which allows nature to naturally  
tenderize the beef.

Our goal at SK Herefords is  
to provide you with the best  
beef eating experience  
you've ever had.

# **BEEF - Fresh from the farm**

Our beef is raised naturally here in Orleans County. All cattle raised for beef are source verified from our farm. We do not buy and sell cattle from anywhere else.

Each head of cattle are identified at birth and data tracked until slaughter. SK Hereford cattle are grass and natural forage fed until finishing and only natural feeds are used on the farm.

All beef at processing is USDA inspected, dry-aged for two (2) weeks, then cut, wrapped and flash-frozen to insure beef quality.

SK Herefords beef is naturally tender and juicy due to marbling occurring in the beef. Marbling ensures that during the cooking process, the fat cooks out and leaves the juices in the meat for tenderness. If there is no marbling, the juices cooks out for a tougher piece of beef.
